# MR. JAYWALKER GETS A RIDE!

You have heard of him before, read about him in the obituaries and cussed him when driving. Mr. Jaywalker is the habitually irresponsible pedestrian who accounted for 34% of Florida's traffic fatalities in *one* year and 195 of his kind were given a ride to the morgue. Throughout the nation 11,200 pedestrians lost their lives last year. Are you startled?

If you have any jaywalking tendencies in your make up eliminate them before they eliminate you. Danger to life and limb is ever present when you venture into traffic. Yet it requires only the simplest application of a little common sense and patience to quit being a jaywalker. Walk and cross streets and highways where you should — when you should. Don't pit your body against speeding metal; it won't win.

Living is a great adventure. Why cut it short before your time? Walk safely and live longer.

\*NEFF? SURE I REMEMBER HIM. Class of '19, wasn't he?"

"That's right. You knew he had to give up his job. Doctor's orders."

"Tough break. Hope he had some money saved up."

"Not Neff. Not a penny. You know how he always was—easy come, easy go. Had to sell his house to get out of debt."

"Rough on that sweet little wife of his. Now that I think of it, she kept trying to talk him out of his free-spending ways. Guess she never could."

"He'd never listen. And now those two

boys of theirs are of college age."

"Guess now they'll have to go to work, supporting him. Why do people get themselves in a spot like that? Anybody with the common sense of a jack-rabbit knows that the only way to protect their families and themselves is with a systematic plan of saving."

We don't know Neff. We merely overheard two fellows talking at lunch the other day. Actually we feel sorry for him—for anyone who doesn't know the importance of saving.

Fortunately, for every Neff there are thousands of others who do have a plan for the future. These are the men who invest a part of their earnings each month in U.S. Savings Bonds.

They can see the wisdom in the Payroll Savings Plan—a painless, automatic plan that pays back \$4 for every \$3 put in, after ten years.

They know that U.S. Savings Bonds are guaranteed by the Government—the safest, surest investment a family man can make today!

If you're not on a payroll, ask at your bank about the equally convenient Bond-A-Month Plan. Remember—you owe it to your own future and to the security of your family!

- More than \$3,800,000 MIAMI — More than \$3,800,000 was collected by the State of Florida in taxes from Hialeah's successful 40-day horse racing meeting this winter, it is revealed by figures announced by the Florida State Racing Commission.

largest pari-mutuels operation, contributed a total of \$2,410,442.15 for Florida old age assistance, and a total of \$1,396,887.08 for equal distribution among the 67 counties.

In contrast to a sharp levelling-off elsewhere in racing revenue, Hialeah's mutuels volume showed a decrease of less than 5 per cent, and there was an actual increase in the attendance total. Before the opening of the meeting, the more optimistic experts figured a drop of 10 per cent in handle, and some estimates fixed the decrease a much as 25 per cent.

Hialeah's successful operation is important news to all Florida, as Hialeah revenue is an essential part of the financial structure for

every county as well as for the state welfare fund.

Twenty-six of the 40 days of the 1949 season the handle was in ex-cess of a million dollars and reached a high of \$1.487,610 on closing day when the Flamingo Day activ-ities were highlighted by a visit from Gov. The smallest daily play during 1949 was \$806,355 as against a single low of \$762.072 for 1948.

Hialeah officials attributed the success of the meeting to the track's increased facilities and the continued high calibre of the horse racing.
